

Eagle Pharmaceuticals, Inc.

Hello Eugene,

I wanted to write and thank you and your team for all of the tremendous effort that was put into the Investigator Meeting. The meeting was run professionally and with much grace and enthusiasm. It was a great success and everyone here at Eagle is excited about the study initiation, I think the entire GCT team is an impressive group of talented, intelligent and dedicated people and I think the company has a bright future. I also enjoyed meeting the investigators individually in their offices. They are a bright group of doctors and I think they will do a good job. Thank you for setting that up. Finally, I also want to thank you for all of extra effort you and your team made to ensure that I had a very nice time in St. Petersburg. From the moment I arrived until my last steps in the airport, GCT made sure that someone was with me to assist me and to guide me and that my needs were taken care of. Even more than that, you and your team made sure that I had a wonderful time on my first trip to Russia, and I did. This effort too is greatly appreciated. I look forward to working with GCT on this study and in future studies.

Yours,

Vice President, Business Operations
